

ESS Group, Inc. has successfully assisted numerous educational and religious institutions with various forms of engineering services. Services range from conceptual site constraints analysis, to parking lot design, to full-scale construction documents and specifications. ESS is consistently responsible for coordination with the permitting agencies as well as the design team. Our unique abilities allow us to assist our clients at all stages of their development needs.

Colleges & Universities

- Site Constraints
- Campus Expansion
- Dormitories
- Parking Lot & Roadways
- Infrastructure Design
- Slope Stabilization
- Stormwater Management
- Brownfield Development
- Liaison with Permitting Agencies

Private & Public Primary Schools

- Parking Lots
- Water Dependant Docks
- Stormwater Management
- Infrastructure Design
- Soil Testing

Religious Buildings

- Meetinghouses
- Temples/Churches
- Stormwater Management
- Design Team Coordination
- Rooftop Stormwater Storage
- Zero Net Stormwater Runoff to City
- Parking & Roadways
- Infrastructure Design
- Soil Evaluation
